FEDERAL ENERGY REGULATORY COMMISSION

Dear Sir:

Re: Docket No. CP06-54, CP06-55 and CP06-56 for the Broadwater pipeline

This is a statement in opposition to the siting of the Broadwater pipeline installation in Long Island Sound.

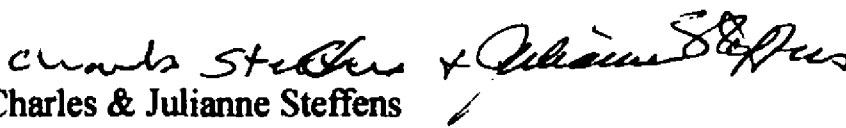

This is a major area for recreational sailing, power boating and fishing. It is also a year round residential area and a major seashore summer resort area as well.

My husband and I have sailed in Long Island Sound for many years. We have also landed our seaplane in Montauk Bay and enjoyed fishing and picnicking on the beaches there.

Commercial fishermen will speak for themselves.

However one can anticipate major concern and objection should there be any leakage with any detrimental effect on the fish habitats in the area or if beaches or swimming areas are spoiled in any way.

Thank you for your attention.
